

Copper Structured Cabling

DIN Rail Adapter for Keystone Modules Stainless Steel – 1 Port

Technical Specifications

Weight	20 grams
Colour	Silver
Product Type: Mount accessory	Product Type: Mount accessory
Physical Dimensions	55 mm height x 50 mm width x 23 mm depth
Material	Stainless Steel
Standards	TAA

Product Description

The Briticom® DIN rail adapter is an excellent choice for users seeking a reliable, flexible, and secure mounting solution for Keystone modules on standard 35 mm DIN rails. Constructed from high-quality 1.5 mm thick stainless steel, this adapter offers exceptional robustness and longevity, making it suitable for environments that require both resilience and precision. Its sleek, modern design integrates seamlessly into a wide range of technical and industrial setups, balancing both aesthetic appeal and functionality.

This adapter is meticulously crafted for compatibility with Keystone modules that feature a snap-in function, specifically designed to fit 14x16 mm front-facing modules. This snap-in capability allows for quick, hassle-free installation and replacement of modules, streamlining setup and maintenance in high-demand environments.

Ideal for use in distribution cabinets, data centers, control panels, and various industrial installations, the adapter supports applications requiring organized cable management and easy access to network components. Whether used in structured cabling systems, automation setups, or networking applications, this DIN rail adapter provides a professional-grade mounting solution engineered for performance and reliability in critical infrastructure.

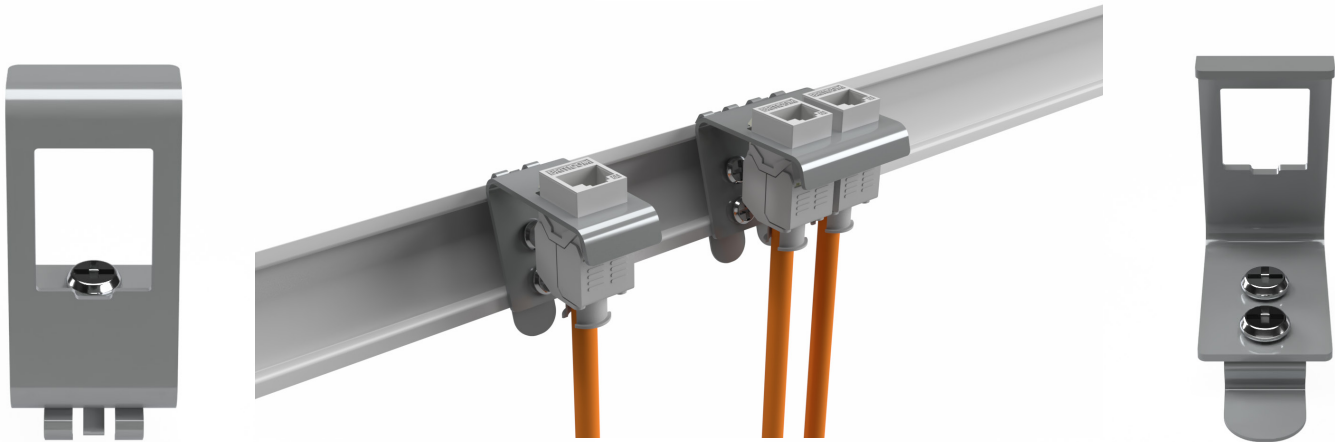

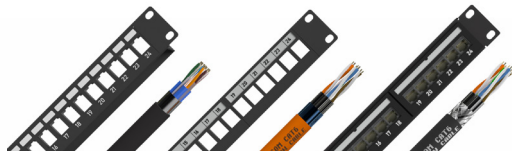

Features & Benefits

- Material: Stainless steel (1.5 mm)
- Compatible modules: Keystone modules (14x16 mm front)
- Mounting type: 35 mm DIN rail
- Stable metal bracket
