

Product Description

Briticom® 5/19 crossbeam allows the installation of single and double anchors and suspension devices on common ENEDIS low-voltage concrete or wood supports.

Possibility of attaching a star fitting at the end of the crossmember for multiple service cable starts.

The crossbar is attached:

- On common wooden support with a CPB console and two 1/12 assembly bolts
- On common concrete support with 5/39 footings and two 1/12 assembly bolts

Features & Benefits

- IEC Standard 60529
- Unique design
- Fits a variety of poles/setups
- Sturdy construction
- Highly durable galvanised steel

Applications

- Aerial cabling
