

Cable Management

HDPE Tube Connectors

Product Description

Briticom® HDPE/PEHD tube connectors are for connecting and manipulating HDPE tubes, which can be used to protect fibre optic cabling. They have age resistance, high insulation, corrosion resistance, high weather resistance, excellent flame resistance and are flexible so can be easily manipulated to avoid obstacles.

Features & Benefits

- Strong and safe direct burial installation
- High insulation
- HDPE/PEHD materials
- Flame retardant self-extinguishing
- Corrosion resistant

Applications

- Telecommunication networks
- CATV – Cable television

Technical Specifications

Standards & Norms	GB/ T13663-2000/ISO4427
Certification	ISO9001:2008
Materials	HDPE (PEHD)

Example Part Number	
Description	Part Number
20mm to Dual 20mm Tee Connector	Contact us for part number
