Product Description

Briticom® offers a complete range of French style wall outlets with single, double and quad ports. All parts are made with high-quality materials and comply with all international standards. We offer double and quad size French faceplates for French-style wall outlets, holding up to 4 modules.

Our French faceplates are made with high impact plastic and are designed to conceal fixings. For a complete socket, faceplates must be combined with back boxes and modules. We also offer a complete range of back boxes for wall fitting sockets or switches.

Features & Benefits

- Single, double or quad sizes
- Fixings, screws and labelling supplied
- Made with high impact plastic
- Conceals wall/box fixings
