

Product Description

The Briticom® Drop Cable Clamp Plastic FTTH is built to fully respect the minimum bending radius of the fiber optic cable. This guarantees zero attenuation during tension. The damping reaches low values.

There is no deformation of the fiber optic cable or displacement of the optical fibers in the sheath. The anchor design ensures easy and safe installation - cable suspension..

Features & Benefits

- Designed for G.657A, round cable 2-6 mm
- Compact size and easy installation
- Excellent mechanical strength

Applications

- Aerial cabling

Technical Specifications

Type	Drop Cable Clamp Plastic FTTH
For Cable Type	G.657A, round cable 2-6 mm
Material	Plastic
Weight	0.05Kg

Part Number	
Description	Part Number
Drop Cable Clamp Plastic FTTH	DC-34-03-100
