

Fibre Optic Components & Assemblies

Fibre Optic Adapters Ceramic Sleeve – Multimode

Product Description

Briticom™ fibre adapters are used in patch panels, boxes, and other fibre passive equipment to enable the mating of two fibre optic connectors, with high precision alignment sleeves to ensure reliability.

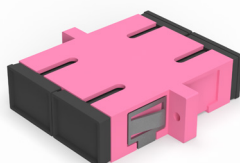

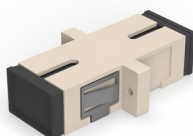

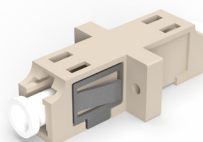

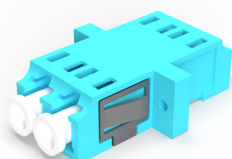

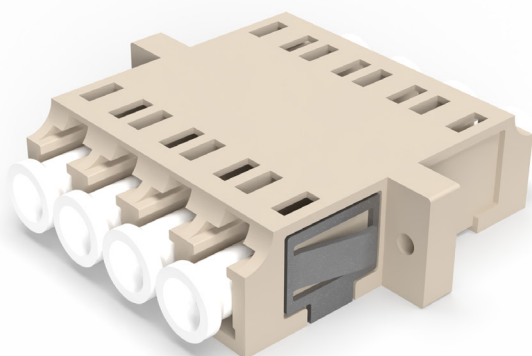

Our adapters are available in simplex and duplex, different colours, with or without flanges and shutters. They are also available in standard datacomms loss as well as low-loss for telecom use.

Features & Benefits

- IEC Standard 60529
- Conforms IEC Standard 61754-4
- SC, LC, ST, FC and more connectors available
- Simplex and duplex available
- Available in different colours
- Low insertion loss (IL)
- Plastic and metal housings available
- Available with or without shutters
- Available with or without flanges
- RoHS compliant materials

Applications

- Data centres
- Telecom
- CATV - cable television
- FTTH

Technical Specifications

	Performance	Conformance
Insertion Loss (IL)	0.10 dB	IEC 61300-3-4
Mating Durability	500	IEC 61300-2-2
Received Retention Force	2N~5.9N (SC/ST/E2000/FC)	IEC 61754-XX
