

Fibre Management

Indoor Splitter Distribution Box Metal – Model 08

Product Description

The Briticom® basement splitter boxes integrate fibre cable storage, distribution and splitting in a building's basement to distribute fibre connections to all of the apartments in the building.

Features & Benefits

- The box has functions of cable termination, splicing, distribution and cross-connection.
- Solid and fully-closed structure with the advantages of good performance of dust-proof, pleasing and neat appearance.
- 2:32 splitters can be put inside.
- Easy installations: Wall mountable.
- Lock provided on every box ensures the safety of the fibers.
- The central adapter board separates the incoming cables and the exiting fibers
- Removable adapter board for easy installation and operation
- Adapters are installed on our adapter board, no screws need for installing any type adapters, which is very easy for future maintenance and keeps the transmission loss at low level.
- Adoptable adapter types: SC, LC/Duplex
