

Cable Management

PVC Trunking

Product Description

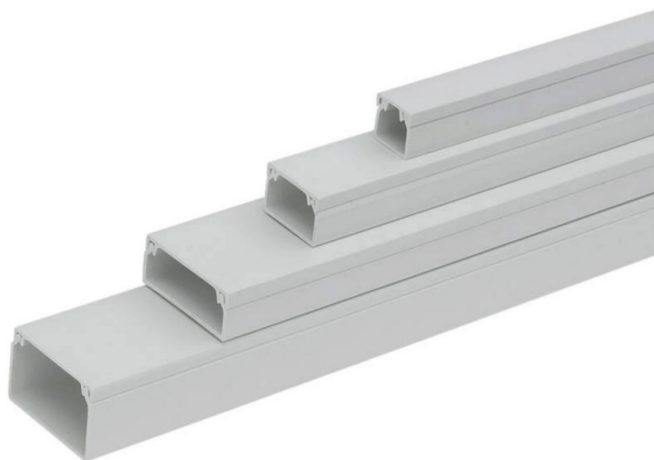

With an array of lengths, thicknesses and compartments available, Briticom® PVC cable trunking is adaptable and suitable for a large variety of installations.

Features & Benefits

- Resistant to compression and impact
- Suitable to be buried in concrete
- Good insulation
- IP40 IK07
- Corrosion resistance
- Able to resist 25KV voltage
- Low friction and high flow capacityLight weight, easy to cut, transport, bent and handle

Applications

- Data centres
- Telecommunication networks
- LAN

Technical Specifications

Material	PVC
Example Diameter (width × height) × Thickness	10 × 10 mm × 0.6 mm thickness
	15 × 10 mm × 0.55/0.8 mm thickness
	30 × 15 mm × 0.76 mm thickness
	100 × 100 mm × 2.0 mm thickness
Lengths	Available in a variety of lengths
