COMPANY BRANDING PRESENTATION

THE BRITICOM® BRAND

The aim of the Briticom® brand is to instil British pride, providing solutions for high-end data communication networks. Therefore, our Briticom® packaging has been designed and developed to reflect that aim - while protecting our high-quality products.

As a valued customer of Briticom, we wanted to let you know personally that we are making changes to the way we look, including modernising our logo and packaging.

What you can expect to see over the next few months

Our developed logo:

Our developed signate:

You'll start to see our new look .

Our packaging and our website are currently being developed and we are sure you will agree it's a major inmprovement.

Our outer cartons are rebranded and the same with our inner product bags which are now biodegadable.

What we are not changing is our excellebnt service and commitment to develop new and innovatiove products.

Outer Carton:

CABINET MANAGEMENT

See examples of the packaging update for our cable management range

COPPER COMPONENTS & ASSEMBLIES

We offer a comprehensive online product catalogue, with each item available for download within its respective category. Our catalogue provides all the necessary product information for making informed decisions tailored to your specific requirements

COPPER
PATCH PANELS

LAN CABLES

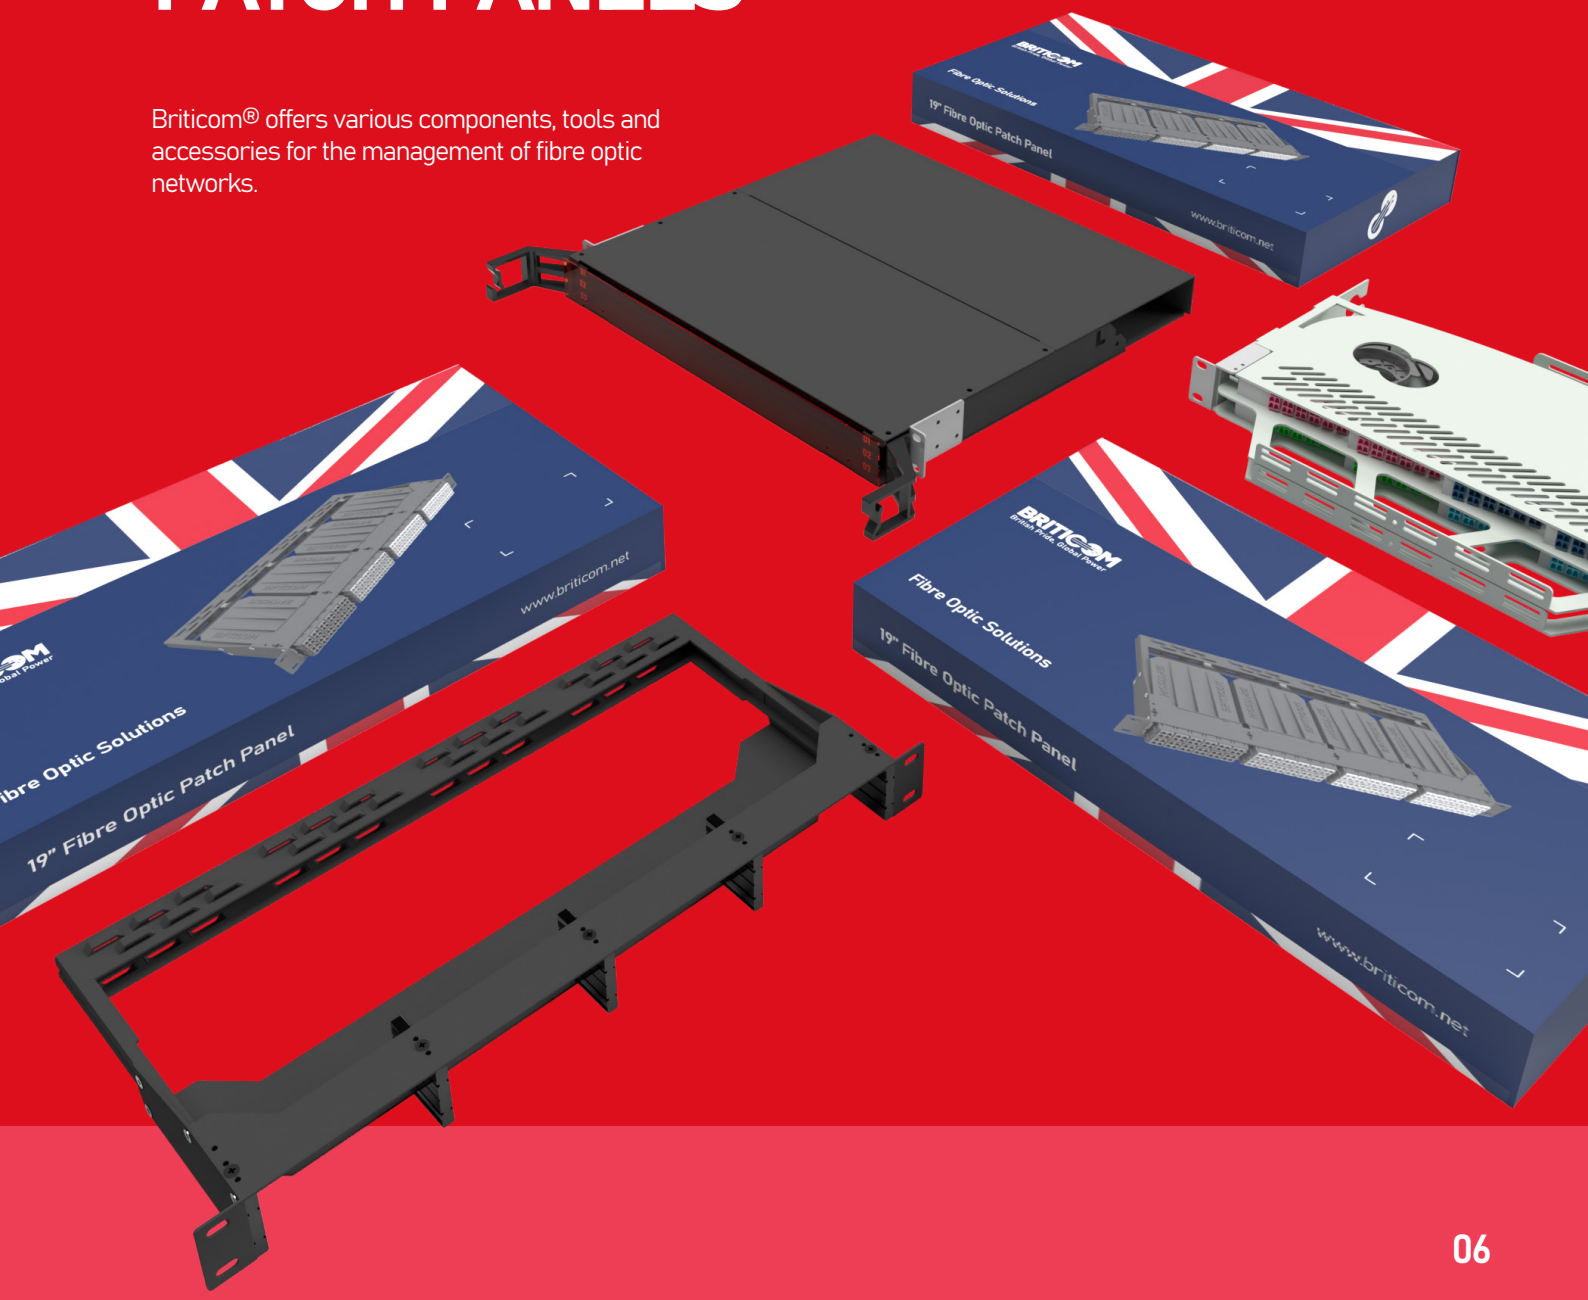

We offer a wide range of indoor and outdoor fibre optic distribution, patching and consumer cables – including Plenum, Riser and LSZH in all diameters. These are used to provide links to protocols such as FTTH, FDDI, 100 Gigabit Ethernet and ATM.

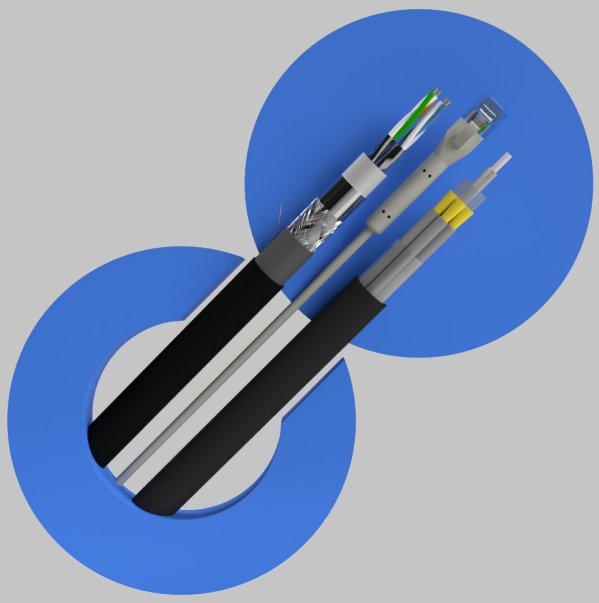

FIBRE OPTIC
PATCH PANELS

Briticom® offers various components, tools and accessories for the management of fibre optic networks.

WHY CHOOSE BRITICOM?

Briticom® aims to impress with its high degree of quality and modularity, innovative functionality, and exceptional convenience in installation and maintenance. We provide added value for all Partners and users, from installers through to network operators. Our solutions ensure maximum availability and therefore cost-effective network operation.

With outstanding product quality, precision, and modern system design, Briticom® is helping ensure that networks remain future-proof and retain their value.
