

Fibre Optic Cleaning Tools & Test Equipment

Stripping Tool – Dual-Hole Fibre Optic Stripper – Model 01

Product Description

The Briticom® fibre optic stripper has ergonomically designed comfort grips, used for stripping 250 micron buffer coating to expose 125 micron clad fibre.

Features & Benefits

- 125 micron clad fibre with 250 micron buffer coating
- Second hole for stripping 2-3mm fibre jackets
- 140µm diameter hole and V-opening in blade allows removal of 250 micron buffer coating from 125 micron fibre
- Will not scratch or nick glass fibre
- Comfort-grip, small size, ergonomic handles

Applications

- Fibre optic preparation and termination

Technical Specifications
