Underground Joint Copper Closure Model 01

Product Description

Briticom® Underground Joint Copper Closure incorporates a zipper enclosed heat shrinkable tube for special communication cables. Aluminium bushing used with the zipper sheath is a worry free solution for underground closures.

Briticom® Underground Joint Copper Closure can be used for telecom and communication cabling, has a 35kv pressure resistance and an application temperature of -55°C to +105°C.

Features & Benefits

- Strong felxible
- Communication cable special
- Corrosion and wear resistant
- Waterproof
- Easy to install

Technical Specifications

Model Number	01
Type	Insulation Sleeving
Material	PE
Application	High Voltage
Rated Voltage	600V
Joint Type	Electric Devices
Colour	Black
Reccomended applications	Underground
