

Cabinets & Racks

Vertical Cable Tray (up to 47U) Metal – Model 01

Product Description

Briticom® Cable Trays are regularly used to manage cabling inside a data rack, the ventilated tray has an imprint profile of various size and shape openings which allows for air flow circulation around the cabling and easy fitting of different size cable straps and cable bundles. Cables can be secured to the tray using either plastic, metal or Velcro cable ties, the profile design of the tray makes it easy to do so.

Features & Benefits

- Available in different size
- Available in different colours
- Supplied in packs of 2 (left and right side of cabinet)
- Multiple cable tie fixing ways
- Side wall return - 10mm

Applications

- Data centres, premise installations, telecommunication networks
- Ethernet, Fibre Channel, ATM, LAN, MAN and WAN
- Data communication
- Indoor applications
