

Fibre Optic Cleaning Tools & Test Equipment

Visual Fault Locator (VFL) 1Mw - Model 02

Product Description

The Briticom® Visual Fault Locator (VFL) is an essential tool for any engineer or technician. This allows quick and easy detection of faults in fibre installations, such as breaks or faulty connectors, by pinpointing the location of the signal loss. Therefore, problems can be diagnosed and fixed efficiently. The VFL can also be used for end to end continuity tests and perform fibre identification.

Features & Benefits

- Quick & easy location of damage in fibres
- Continuous & flashing illumination models
- Designed for demanding field use
- Long-lasting battery life
- Protective rubber end cap
- Soft-sided carry case with belt loop
- One-year warranty

Applications

- Fibre optic inspection and testing

Technical Specifications

Wavelength	650nm
Emitter Type	Laser (Class 2)
Output Power	1.0mW max
Distance Range	>7km (single-mode); >5km (multi-mode)
Operation Mode	Pulsed & CW
Power Supply	2x AAA batteries
Battery Life	>30 hours
Connector Type	Universal 2.5mm; Universal 1.25mm
Dimensions (mm)	136x34x20
Weight (g)	63
